"The price of greatness is responsibility"

Gee, I wonder who said *that*? Certainly not the current resident of the White House. Not only does he avoid responsibility, but he blames others (and one person specifically) for his actions *and* inactions.

Of course to be judged that way, you must first accomplish something good or bad. Or you can just gaslight people who know something isn't right but you keep telling them it is. The economy is a great example. Everyone in America is paying higher prices for food, gas, insurance, travel, vacations, and more, and Biden doesn't acknowledge inflation.

Even the cost of higher education has risen as the value of same plummets because no one in business wants to hire employees who don't know how to work in an office, show up on time, or do even their job without whining. Had someone chosen to be a plumber, for example, that person would be making \$80 grand a year with no college debt. Oh, wait. Biden just "forgives" college loans because ... I don't know why.

Other things are more expensive, too. Why? Well, blue-state governors must now deal with the illegal alien crisis at their own doorsteps as they are stunned to learn decisions have consequences. Touting that your state or city is a "sanctuary" for illegals has backfired big time. As of September 2023 NYC has spent over \$12 billion in three years to shelter "migrants." And where does that money come from? Right out of New York's taxpayer's pockets. It used to be that the political parties worked together for the greater good of their city, county, state and country. Elected officials' passion for good government seems to have gone the way of the proverbial horse and buggy. Common sense isn't far behind.

America is already trillions of dollars in debt. Something has to give. According to the Wall Street Journal, "The U.S. Government will soon spend more on interest payments than Defense." Again, who picks up the tab? Taxpayers who are squeezed tight by the aforementioned price increases.

I just saw this list the other day: "1. Shaming individualists. 2. Cultural destruction. 3. Divide and conquer strategy. 4. Promoting class warfare. 5. Release of violent prisoners. 6. Intimidation of opponents. 7. Legal double standards favoring those politically aligned." — Russian Revolution (1917-1923)

But wait; did you think this was about today's Democrat policy?

Let's see if this looks anything that's going on today:

1. Anyone who doesn't accept transgenderism is a bigot.
2. Martin Luther King brought our country together when he took on racial issues in 1963. It was tough but finally Americans began to heal from past offenses and all become better people.
3. Blocs liberals got elected because they promised people a better life. Unfortunately, Democrats did not deliver better schools, safer neighborhoods, more jobs to Black Americans; they just kept promising.
4. This is described as DEI, diversity, equity and inclusion. You can't make people what they aren't just by changing a definition. Choosing one pilot over another regardless of qualifications and just using race or gender as the qualifier is deranged.
5. Who would be stupid enough to do this? Ask the citizens and cops of New York who daily are being accosted by illegal aliens who've committed multiple crimes but let off the hook by idiot prosecutors.
6. What about Jan. 6th and the hundreds of people who did nothing wrong yet are still in jail for peacefully protesting. BLM rioters did hundreds of million\$ in property damage and didn't spend a nanosecond in jail.

And, now we come to number seven: legal double standards. Donald J. Trump is running for President and the Dems, libs and socialists will do anything to stop him. Trump is 77 years old and has never committed a felony, yet he is charged with 91 felonies and multiple trials to try to put him in jail. This outrage is an illustration of *lawfare*, a corruption of justice.

So my answer to the question at the end of the list is YES, I do think all of the above are weapons of the Democrat party. Biden has torched our economy, sent billions to Ukraine, forgiven student debt, yet refuses to secure our border and deport illegal aliens. This isn't about now; it's about future generations who will have few of the freedoms we've enjoyed since we became a country. BTW, that was Churchill's quote at the beginning. We need more statesmen like him and like Trump to defeat the dishonesty of the Dems and One World Society.

Wise up, America. Do something before it's too late. And it will be too late if another Democrat cheats their way into the White House.

A message from our President

Many terms are thrown around these days to describe what Americans feel is happening within our political system. Terms like RINOS, UNI-PARTY, THE ELITES, THE PRIVILEGED DEEP POCKET ESTABLISHMENT, THE CABAL, THE GLOBALISTS, and finally THE OLIGARCHS.

What we know distinctively is that a "select group" of people are ruling us worldwide, nationally, and locally, who do not necessarily believe in God or our Constitution.

Are these the people who want to die on the battlefield to secure our freedom or, are they the puppet masters who will do everything in their power to remain in office, i.e, career politicians? Sadly, the latter happens to be the truth. If it weren't true, we would not have RINOs sabotaging the campaigns of grassroots Conservatives who volunteered their precious time to run for public office to serve us, as in WE THE PEOPLE, because they were, themselves, fed up with the ongoing corruption. We essentially have politicians

who finally gain an election victory because they were backed by dark money PAC groups, land developers, huge unscrupulous builders and yes, even local, state & federal elected legislators. Of course, these same folks show up later for favors in exchange for their huge donations!

One thing for certain, there are a huge number of Republicans who want these RINOS out of office. Regrettably, there are still a few who look the other way because they know the candidate, or he/she is a good friend. Really?! Have you ever contemplated this: "WITH FRIENDS LIKE THEM, WHY WOULD YOU NEED ENEMIES?!"

It is time we stop with this nonsense and start doing what is in the best interest of all of us, meaning, taking our REPUBLIC back at all costs. And that cannot be accomplished by a lot of ridiculous excuses! That is all for now. May God give us the strength and grace to persevere? God bless us all.

— *Chuck Collins*

services available

First on the list is for those who would like accurate body counts from attacks like those recently carried out by the US against Iran allies in Iraq and Syria: *The Hamas Accurate Body Count Indicator Service!*

For just 28 shekels per month you can get instant body counts from skirmishes around the world, often before the attacks actually occur. The count does not distinguish between fighters and civilians nor between friends or foes or between animals and humans. These counts are guaranteed to coincide precisely with those published by Reuters, The AP, BBC and other major news outlets.

Second is the Biden Early Alert subscription service for those of the terrorist persuasion that wish to minimize retaliatory strike damage by US forces.

For the price of a cup of Starbucks coffee per month you can plan ahead for evacuation from sites designated by our Administration for targeting well in advance of the actual strike. As an alternative you can tune into C-Span for live updates by State Department officials on secret briefings held that very morning. For an additional cup of coffee you can be given the all clear alert so you can safely return to your demolished office site to start rebuilding your career in covert warfare.

Finally, we offer the Accuracy in Government website for those who are skeptical of published government data such as employment statistics, inflation, deaths from disease, wage growth and immigration totals. This service has proven highly accurate in past years (particularly during election years) at predicting trends of major importance to our hard working taxpaying public. Not once, for instance, in the past 23 general elections has unemployment, criminal conduct, or cost of living stats been predicted to rise just before an election.

Biden's EV push could spell bad news for America's worn out roadways

The American Society of Civil Engineers (ASCE) released a report card taking stock of the country's infrastructure in March 2021, giving America's roads a "D" grade.

EVs tend to weigh about 20% to 50% more than gas-powered equivalents, according to the University of Nebraska's Midwest Roadside Safety Facility. In addition to the extra weight, EVs also have a lower center of gravity than internal combustion engine models, which makes them more prone to forcefully breaking through metal guardrails designed to keep cars from falling off the road in the event of an accident. — BizPacReview

'Just Insane': Dr. Phil Tells Hannity He Was 'Shocked' By Visit To US-Mexico Border

Former TV talk show host Dr. Phil McGraw described a trip to the U.S.-Mexico Border Monday evening, revealing an "insane" situation that "shocked" him.

"I asked them straight up, what is it you need here?" McGraw continued. "And I was shocked to hear them say, we don't need more money. We don't need more resources. We don't need more officers. We don't need more legislation. **We just need the laws that are on the books to be followed.** We need to be allowed to do our job and we can get this under control right now. We don't need a bunch more money, officers, and legislation, just let us do our job. That's all we need. If you do that, we can get this under control overnight."

McGraw also observed that illegal immigrants reacted differently to federal agencies like the Border Patrol as opposed to the Texas Department of Public Safety.

"The interesting thing that shocked me, Sean, if they run into someone in a brown uniform, that's a Texas Department of Public Safety border guard, they get arrested, they get put in jail, and they get returned," McGraw said. "If they run into a green uniform, that is a federal, they get money and a court date that's seven to 10 years down the road, and they get released into the country. So you see these groups coming across, and if they see a brown uniform, they hide. They see a green uniform, they run toward it. That to me is just insane."

public to really rise up in various states to say to their senators that they want to see the borders — the border issue resolved?" Sharpton asked Senator Chris Murphy (D-Conn.) during an interview on MSNBC's "Morning Joe" on Monday. "I mean, you're getting migrants beating up policemen in the streets of New York," Sharpton continued. "You are seeing an influx of migrants all over the country that, frankly, have people outraged." He wondered if "some kind of public pressure" could be exerted over the next few days to, in effect, ask senators of various states, "Why are you allowing this to continue? Because at the end of the day, senators have to deal with their voters," he said.

EXCLUSIVE: FOIA Documents Reveal Secret 2020 Election Day Meeting With CISA, Dominion, ES&S, ERIC, FBI, Leftist Organizations, State Officials, and Others – Only Recently Discovered

Recently, investigative journalist Yehuda Miller received several FOIA documents that completely reshaped what we were told to believe about the 2020 US presidential election.

The election was billed by the Democrat Party, Joe Biden, the mainstream media, and former CISA Chief Chris Krebs as the most secure election in US history. The Gateway Pundit's Jim Hoft is currently the lead plaintiff in the Missouri-Louisiana vs. Joe Biden lawsuit that is heading to the Supreme Court in March.

The plaintiffs are challenging the Biden regime's censorship apparatus, arguing that the federal government cannot infringe on the free speech of Americans.

CISA today is central to the government's censorship system.

CISA describes itself as the operational lead for federal cybersecurity and the national coordinator for critical infrastructure security and resilience. However, since its founding, CISA has morphed into a much more sinister and politicized organization. Today, we have evidence that a private meeting was organized by CISA officials on November 3, 2020, at 3:30 PM Eastern Time with select members of a secret "Election Security Initiative." Close to 250 individuals were invited. Excerpted from — thegatewaypundit.com

White House Plan To Reduce ICE Deportations Sparks Fury

Senior Republicans reacted with fury after White House Press Secretary Karine Jean-Pierre said U.S. Immigration and Customs Enforcement (ICE) would "be forced to reduce its [migrant] removal operations" after Senate Republicans blocked a bipartisan immigration and foreign aid agreement backed by the Biden administration.

Speaking to reporters on Air Force One, Jean-Pierre said: "Because congressional Republicans are choosing partisan politics over our national security and refusing to pass the bipartisan national security agreement that includes significant border reforms and funding, over the coming weeks ICE will be forced to reduce operations because of budget shortfalls."

Responding on X, formerly Twitter, Republican Senator Tom Cotton accused the Biden administration of deliberately stoking illegal immigration. He shared a Fox News story about Jean-Pierre's remarks, adding: "This is blackmail. And an admission that Biden controls the level of illegal immigration. The entire border crisis is by design." — Newsweek.com

Mail-In Ballot Fraud Study Finds Trump 'Almost Certainly' Won in 2020

"Had the 2020 election been conducted like every national election has been over the past two centuries, wherein the vast majority of voters cast ballots in-person rather than by mail, Donald Trump would have almost certainly been re-elected," the report's authors wrote. In scenarios of 5–4 percent fraud, each candidate would have received 269 Electoral College votes, but President Trump would likely still have won because Republicans controlled more state delegations and, under a tie scenario, Congress would have voted based on the number of delegates.

However, the researchers expressed confidence in their overall assessment that the level of mail-in ballot fraud was over 25 percent, indicative of an actual Trump win. The new study examined raw data from the December survey carried out jointly between Heartland Institute and Rasmussen Reports, which tried to assess the level of fraudulent voting that took place in 2020.

The December survey, which President Trump called "the biggest story of the year," suggested that roughly 20 percent of mail-in voters engaged in at least one potentially fraudulent action in the 2020 election, such as voting in a state where they're no longer permanent residents.

"We have no reason to believe that our survey overstated voter fraud by more than 25 percentage points, and thus, we must conclude that the best available evidence suggests that mail-in ballot fraud significantly impacted the 2020 presidential election, in favor of Joe Biden," the paper's authors wrote.

When I was in 7th grade, our teacher put on a video and told us to take notes. Ten minutes in, she threw the lights on and shouted at Steven Webb Sladki, telling him he wasn't taking notes and he should have been. But the thing was, Steve was taking notes. I saw it. We all saw it. The teacher asked if anyone wanted to stand up for Steve. A few of us choked out some words of defense but were immediately squashed. Quickly, we were all very silent. Steve was sent to the principal's office. The teacher came back in the room and said something like "See how easy that was?" We were reading "Anne Frank." I started to understand. I just thought now was a good time to share this story. Don't ever let anyone tell you that what you see with your own eyes isn't happening.

United Nations Foundation Bankrolling US Politics Under 'Climate-Change' Narrative

A United Nations foundation formed to support global U.N. initiatives has allegedly been funding Democrat state government offices across the United States. In some cases, the organization has been paying the full salaries of some government officials. The finding is raising concerns over the independence of officials who have received the money, and to what extent the funding has influenced their policies —especially on climate initiatives pushed by the foundation.

ELIZABETH FETTERHOFF
DELAND, FL

Representative Elizabeth Fetterhoff was born and raised in DeLand, Florida and enjoys representing her hometown in the Florida House. She is a graduate of Daytona State College (High School), Tallahassee State College, and Florida State University and is a veteran of the Florida Army National Guard.

Ms. Fetterhoff was first elected to the Florida House of Representatives in 2018. She has been an active member of the Republican party since first registering to vote and was a founding member of the Capital Young Republicans in Tallahassee.

Ms. Fetterhoff is a strong conservative that will fight to help us keep more of our hard-earned money, support the men and women of Law Enforcement, protect the sanctity of life, defend our second amendment rights, and protect the freedoms parents and their kids deserve.

“

We don't need more politicians insisting we have deficits because you're not taxed enough. Those deficits ballooned from an economy that didn't grow enough and from 50 years of government spending too much.

Republican Conservatives Ormond Beach Assembly

It's more important than ever to support the values we hold dear in America: God, Family, Country. President Ronald Reagan said, "the best symbol of grassroots worker I can think of is the Republican Assembly's ...[NRFA] thousands of dedicated men and women are the ones who turn all those modernistic campaign drives into real votes.

NFRA provides the nucleus of the Republican candidate's volunteer work brigade. I know from personal experience. It's hard to imagine my campaigns being anywhere near as successful as they were without the dedication of Republican Assembly members. I urge you to join today."

The Florida Republican Assembly is on a mission to unite Floridians across this great state and bring forward their wisdom and talents to make a difference at the local, state and national

levels. We are NOT the establishment!

We are a grass roots organization with the objective of growing the Republican Conservative Values and disseminating its core values to the greater Ormond Beach, FL community. In addition, our purpose is to make our County and America strong through participating in and supporting Republican Conservative solutions to our country's problems. We strongly believe that all area voters must be made aware of conservative ideas and solutions resulting in positive improvement on how all levels of government operate.

Your participation in our advertising campaign will help us support local, county and state candidates who believe America must be saved from joe biden and other liberals.
