Happy Valentine's Day

Welcome to RCOBA's new Vice President Doug Pettit and many thanks to Rob Guidotti for his service in that position and to all our returning Board Members for their continuing activities on our behalf.

RCOBA is blessed with many members who do more than attend luncheons once a month. We need all members to participate in some way because even though we've often been told "this is the most critical election ever," this time it IS.

There isn't one aspect of our society that isn't under attack. Each day a new horror is perpetrated upon *our* America by those who want "fundamental change." We have too few strong Republican elected officials and too many RINOs.

BUT, and this is where it gets interesting ... biden and his insane ideas are causing massive erosion to the democrat base. No longer are Hispanics, Blacks and Independents groveling at the feet of multi-term dems. Middle class families have seen their own bottom lines decrease almost daily as food, transportation, gas, fewer trucks and a myriad of other aspects of our economy affect distribution of goods to every family in America. Because just one year ago none of the above were problems the contrast is becoming so indisputable that even the dimmest dem can't ignore it.

And God bless parents for standing up to School Boards across the country and demanding the highest education standards for their children from Kindergarten to College. The Loudoun County (Virginia) School Board is among those who believe parents have no right to decide how and what their children will be taught. CRT (critical race theory) divides America along racial lines and it's one reason kids have no idea of true American history and why we enjoy the freedoms no other nation can claim.

But again, there is a bright side to all of this. Florida is FREE thanks to the genuine leadership of Governor Ron DeSantis and his team across our State. He promoted the expansion of School Choice for students. His program, Florida's B.E.S.T. Standards (Benchmarks for Excellent Student Thinking) will be fully implemented this year as a replacement for Obama's dismal and useless Common Core.

DeSantis' efforts to insure that those who catch Covid-19 (aka "The China Virus") are treated properly are a direct affront to fauci, biden and their ilk. In Florida we have no masks! and access to monoclonal treatments despite biden's ban on Ivermectin and Hydroxychloroquin.

When the rubber hits the road this year before the mid-term elections, we MUST be on that road ready to do anything and everything possible to get rid of the Republicans in Name Only and replace them with strong, courageous leaders who will not be swayed by the false promises of the swamp denizens who do not represent We the People. I must admit my admiration for Krysten Sinema and Joe Manchin for refusing to bow to unrelenting democrat pressure to pass the "build back biden" financial disaster and the removal of the filibuster. Ohhh, how I'd like to see that backbone evinced in McConnell, Romney and others who fail to uphold the values of the Republican Party.

If each of us across this great land will do *just one thing* to stop the unbridled efforts of the media and the socialists/liberals/communists/democrats bent on America's destruction, **WE WILL WIN!**

## Our President's Message

It's time to make some changes to our state and local government ... get rid of the swamp and bring in elected officials who will actually represent We the People! Three candidates who could make a difference will be at our February meeting. They are:

**TIM SHARP:** Candidate for STATE REPRESENTATIVE, DIST. 24.  
Presently held by PAUL RENNER

**ROBERT LITTLETON:** Candidate for Volusia County Council Dist. #4.

**KEN SMITH:** Candidate for Volusia County Council District #4.

We would like all MEMBERS to respond YES or NO regarding attendance. We require no excuses for a NO. However, this is a very highly contested and very important election. We want for all Members to have questions prepared.

For those who cannot attend, please forward your questions. We shall attend to them as time allows..... from now until election we shall only have Candidates running for office as Speakers ... please, no exception!

*At this juncture, the upcoming primary election is the  
most important election of our lifetime!!*

### - Is Joe Biden proud of his accomplishments during his first year in office?

- 1) Increasing inflation from 2% to 7%.
- 2) Allowing the crime rate to surge to new all time highs.
- 3) Failing to hold the Black Lives Matter and Antifa terrorists who burned down American cities for two years accountable.
- 4) Increasing the national debt the most in any one year period.
- 5) Leaving 90 billion dollars worth of weapons in Afghanistan for the Taliban terrorists to use.
- 6) Allowing 200,000 criminals to enter the United States from Mexico every single month.
- 7) Spending time at his vacation home in Delaware while Americans suffer the worst shortages we have ever seen.
- 8) Allowing so many drugs to stream into the United States from Mexico that the drug epidemic in the United States is the worst it has ever been.
- 9) The highest level of homelessness in American history. Worse than the Great Depression. Large American cities run by democrats look like third world countries.
- 10) Allowing a criminal justice system which favors the criminals and ignores the victims.
- 11) Turning American schools into indoctrination camps for insane woke ideology.
- 12) Doing a worse job against the Covid-19 pandemic than Donald Trump.

# Totalitarian Paranoia Run Amok: Pandemics, Lockdowns, & Martial Law

This is a real awakening. This mess was made possible by the frogs in the boiling pot.

I remember when I got involved with Fairtax twenty years ago. Until I had time to tie the creation of the Income tax to the same year creation of the Federal Reserve and realize it was not a coincidence that I began to put the pieces together. Orwell had it right unfortunately.

As we've watched the Deep State depose Trump, they are now turning their attention to DeSantis, the next big threat. The attacks on Trump were far more serious than most of the people realize. Censoring a President wasn't a serious enough offense for folks to stop using Twitter as I did. Zuckerbucks paid for Democrat campaigns in the Southeast with barely a whimper from Republicans. Facebook just rolled on having accomplished their intended purpose.

Sleepy Joe is irrelevant to the deep state titans from both corporate America and Federal agencies that saw Trump as an existential threat.

The overused phrase: "The most important election in our lifetime" is actually true this time. Hopefully Youngkin, DeSantis, Greg Abbot and Kristy Noem will help turn the tide. Biden's poll numbers seem to be taking hold in the minds of voters (although the networks have not yet stopped hammering Trump for Jan 6.)

Ask your circle of friends if there is any agency of the Federal Government that is still trusted by the voters.

I think the situation in Australia is a real harbinger. Aussies used to be the epitome of liberty and self reliance. They've turned "woke" even as they try to stand up to threats from China.

Critical year coming up. Thanks for sharing this article. I'm forwarding to a few friends.

The following is a brief excerpt from the link above. Believe me the whole article will make your hair stand on end. — *Editor*

"The government is systematically locking down the nation and shifting us into martial law.

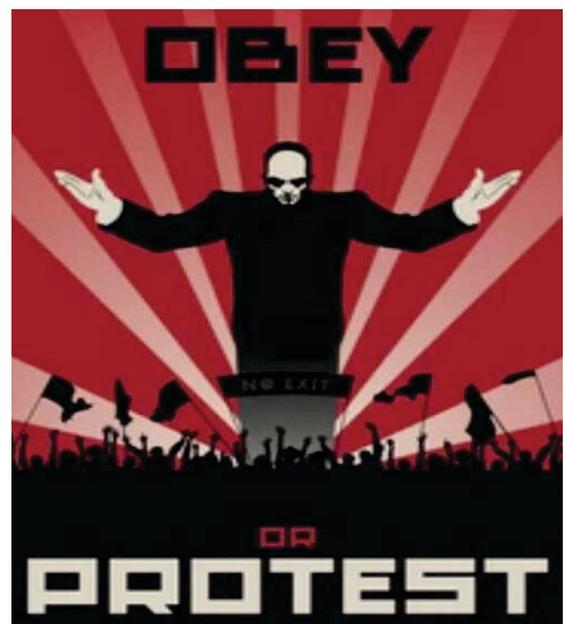

"This is how you prepare a populace to accept a police state willingly, even gratefully.

"As Nazi Field Marshal Hermann Goering remarked during the Nuremberg trials:

"It is always a simple matter to drag people along whether it is a democracy, or a fascist dictatorship, or a parliament, or a communist dictatorship. Voice or no voice, the people can always be brought to the bidding of the leaders. This is easy. All you have to do is tell them they are being attacked, and denounce the pacifists for lack of patriotism and exposing the country to danger. It works the same in every country.

"It does indeed work the same in every country.

"It's time to wake up and stop being deceived by government propaganda."

# We MUST Defeat This Evil ...

This is my home and I was privileged to be born here. But today I woke up and as I had my morning coffee, I realized that everything is changing for the worse. No matter how I vote, no matter what I say, no matter how much I pray, something evil has invaded our nation, and our lives are never going to be the same. I have been confused by the hostility of family and friends. I look at people I have known all my life--so hate-filled that they agree with opinions they would never express as their own. I think that I may well have entered the Twilight Zone. We have become a nation that has lost its collective mind!

You can't justify this insanity

- If a guy pretends to be a woman, you are required to pretend with him.

- Somehow it's un-American for the census to count how many Americans are in America.

- Russians influencing our elections are bad, but illegals voting in our elections are good.

- It was cool for Joe Biden to "blackmail" the President of Ukraine.

- Twenty is too young to drink a beer, but eighteen is old enough to vote.

- People who have never owned slaves should pay slavery reparations to people who have never been slaves.

- People who have never been to college should pay the debts of college students who took out huge loans for their degrees.

- Immigrants with tuberculosis and polio are welcome, but you'd better be able to prove your dog is vaccinated.

- Irish doctors and German engineers who want to immigrate to the US must go through a rigorous vetting process, but any illiterate gang member or terrorist who jumps the southern fence is welcome.

- \$5 billion for border security is too expensive, but \$1.5 trillion for "free" health care is not.

- If you cheat to get into college you go to prison, but if you cheat to get into the country you go to college for free.

- If you cheat in an election nothing happens to you, but if you point out the mathematical errors of that election you are a conspiracy theorist & disdained.

- People who say there is no such thing as gender are demanding a female President.

- We see other countries going Socialist and collapsing, but it seems like a great plan for us.

- Some people are held responsible for things that happened before they were born, and other people are not held responsible for what they are doing right now.

- Criminals are caught-and-released to hurt more people, but stopping them is bad because it's a violation of their right.

- Then there is the whole Afghanistan, vaccine, endless COVID variants, election cheating, deficient president, violence in the cities, defunding the police, confiscating my guns while arming terrorists, etc., etc.

- And pointing out all this hypocrisy somehow makes us "racists"?

- Nothing makes sense anymore - no values, no morals, and no civility. People are dying of a Chinese virus, but it's racist to refer to it as Chinese even though it began in China. We are clearly living in an upside-down world where right is wrong and wrong is right, where moral is immoral and immoral is moral, where good is evil and evil is good, where killing murderers is wrong but killing unborn babies is okay!

Wake up America, the great unsinkable ship Titanic America has hit an iceberg, it's taking on water, and is sinking fast. We Americans are drowning. Speak up while you still have breath and a voice for soon you will have neither if you don't!

This needs to be sent on to a lot of people. Please do it.
