## President's Corner

Yes, normally writing something up for our Monthly Newsletter I should come up with something original and ingenious but, at this stage of the game in our

Given the challenges facing the country, I have realized the importance of adopting a pragmatic approach that's close to home, and fits us best. And so, this magnificent prayer from one of JESUS' best friends came to mind, and it says it all.

The one thing that is original about this prayer is that it was promoted by BILLY GRAHAM. I suspect he was praying to our Lord when our Country started to slide down that slippery slope to EVILNESS!

Heavenly Father, we come before you today to ask your forgiveness and to seek your direction and guidance. We know Your Word says, "Woe to those who call evil good, but that is exactly what we have done.

We have lost our spiritual equilibrium and reversed our values!

We have exploited the poor and called it lottery!

We have rewarded laziness and called it Welfare!

We have killed the unborn and called it choice!

We have shot abortionists and called it Justifiable!

We have neglected to discipline our Children and called it building self esteem!

We have abused power and called it Politics.

We have coveted our neighbors' possessions and called it ambition!

We have polluted the air with profanity and pornography and called it freedom of expression!

We have ridiculed the time-honored values of our forefathers and called it enlightenment!

Search us, Oh God, and know our hearts today; cleanse us from every sin and please dear God, Set us Free from our own created evil bondage, Amen!

And to clarify it, all of the above is true because we, the spoiled Society of the last 60 years, want everything to be done right now, at no cost, and God forbid, without being inconvenienced. And that only equates and personifies our very existence. It is the worst of the worst that any one human can feel for another and it defines the evil of a Godless State: INDIFFERENCE! May God have Mercy on our souls.

With issues like flooding, destruction of woodlands because of our crisis in over-development, contamination of our waters, and now the possibility of toilet to tap, something has to be done and we can't keep voting for the same people who have created these problems.
