## We Are Missing Two Things

I can't say I've ever admired much about Nancy Pelosi, but I'll give her this; during her Speakership in the US House of Representatives, on nearly every vote, nearly every democrat voted in lockstep. Sure, there were some unimportant issues that Dems broke from the stranglehold and voted with Republicans, but those votes were few and far between. I'm curious as to how she achieved this unity and control.

Need I say that the situation America is in today should be laid at the feet of those Dems AND the RINOS who continue to support them? It seems that certain RINOS just love to toss aside the loyalty to those of us who elected them and allow further catastrophes to befall our crumbling Republic as they accrue unconscionable amounts of \$\$\$.

A recent example is RINOS voting for Mike Johnson's "tiny" \$95 BILLION transfer of our taxpayer dollars to Ukraine, Taiwan, and Israel. "The Biden administration is already finalizing its next assistance package for Ukraine so it can announce the new tranche of aid soon after the bill becomes law in order to meet Ukraine's urgent battlefield needs, a White House official said." (Reuters.com)

I believe it is treason to defy the Constitution and allow 15-20 million illegal aliens to stream across our southern border unimpeded as they have during the Biden administration. "The Senate vote comes a day after the House failed to impeach Homeland Security Secretary Alejandro Mayorkas, a stunning blow to House Republicans who had pushed the effort as a key political goal. A GOP-led standalone Israel aid bill also failed in the House. (CNN.com) Cramming so many issues/bills into one colossal misuse of our tax dollars with RINO support revolts me.

Frankly, so many issues are demanding our attention that we the People who care deeply are overloaded while too many Americans are uninformed, disinterested, and do nothing.

Likewise, I can't say I admire some of the things Pope Francis has championed either. As a Catholic, I'm appalled that he doesn't condemn abortion outright. He's not too pleased with American Bishops who demand adherence to the Commandment that says, "Thou shalt not kill." In the Catholic Church and many others, personal responsibility is a given, and obedience is expected. Because there are no perfect

people, we commit various sins. And there are consequences.

I've seen many Popes over the decades since I was baptized 78 years ago. Each has had his strengths and weaknesses. Some faced incredibly difficult decisions. That brings us to Pope Francis who has taken my Church in other directions. He espouses climate change and calls people who don't believe it "stupid." He asserts abortion is "murder." Francis doesn't approve of some US Bishops insisting it is a grave sin and who refuse to agree with Biden's pro-choice agenda. Instead, he gave Biden a pass on excommunication. Wouldn't it be better to promote self-control, and personal responsibility before conceiving a baby? If Francis allows the murder of babies, doesn't that demand excommunication?

Why am I telling you all this? Before the sixties abortion was abhorrent, looked down on, and hidden. We had morals and ethics and the presence of God in our public and private lives. The Bible guided our behavior and laid out the consequences of sins.

As well, our government has the exceptional documents called the Constitution and Bill of Rights that have been derided and pushed aside by liberals, Democrats and outright communist leaders. Our society is in chaos on every level. The tenets that guide our government and our religions are very similar. One thing stands out in both areas: the after-effect of disobedience brings consequences.

The economic disaster of Bidenomics is felt in every household in America. Drugs and human trafficking are mostly ignored as millions of illegals storm our border without consequences. A thug in New Mexico with FIVE previous felony convictions, broke into a home while on the run from the police. The grandmother in residence shot him and then tended to his wound. Why wasn't he tried (and convicted) the first time? Currently, we have grossly uneducated "students" rioting for Palestine and Hamas who don't even know why they are participating.

God has been removed from every aspect of public life and our religions seem to be going along with it. Without laudable goals and consequences, our lives mean nothing in every situation. I pray that God hears our prayers and brings us back to the Bible and the Constitution/Bill of Rights.

“ One of the traditional methods of imposing statism or socialism on a people has been by way of medicine. It's very easy to disguise a medical program as a humanitarian project. – 1961

If we lose freedom here, there is no place to escape to. This is the last stand on Earth. And this idea that government is beholden to the people, that it has no other source of power except to sovereign people, is still the newest and most unique idea in all the long history of man's relation to man. This is the issue of this election. Whether we believe in our capacity for self-government or whether we abandon the American revolution and confess that a little intellectual elite in a far-distant capital can plan our lives for us better than we can plan them ourselves. – 1964

Government is like a baby: An alimentary canal with a big appetite at one end and no responsibility at the other. – 1965

There are those in America today who have come to depend absolutely on government for their security. And when government fails they seek to rectify that failure in the form of granting government more power. So, as government has failed to control crime and violence with the means given it by the Constitution, they seek to give it more power at the expense of the Constitution. But in doing so, in their willingness to give up their arms in the name of safety, they are really giving up their protection from what has always been the chief source of despotism—government. – 1975 ”

### EVERYONE CAN DO SOMETHING

“All politics is local.” That is, nearly all those in Congress or our State Legislature started in their hometown. If we continue to let developers ruin our quality of life because they fund certain candidates, we have no one to blame but ourselves. Our candidates work for us and deserve our support. If we don't help them our roads will become even more irritating, our water sources will be filled with cement, schools overcrowded and our quality of life will only get worse.

Our candidates are not the beneficiaries of big money donors and can't afford to send out glossy brochures. See the list in the first column? Find something you can do and offer to help. PLEASE!

## SPENDING US INTO OBLIVION

Unless you are a college student and signed for a loan on the dotted line, most of us have to pay our debts. Thanks to joe biden, however, thousands upon thousands have had their debt “forgiven” in an effort to recruit future democrat voters. The same thing is happening with the influx of millions of illegal aliens invading America with no vetting, no medical check, no money, no job, no housing, no food, no nothing! Guess who pays those bills? We the People do. And as you can tell from the diagram, we are trillions of dollars in debt. As of Jan. 2023 foreign countries own \$7.4 trillion of US Treasuries – or roughly 24% of total US debt. Between 2000 and 2022 just China's ownership grew to \$855 billion. Common sense tells us we are at great risk. If debt-owners called their loans right now, to put it bluntly, we are screwed. Much of the debt was incurred through biden's Executive Orders splashing our money around on Ukraine and throwing dollars everywhere but where we need it most: our own border. Our economy is in shambles and our children and grandchildren will inherit an America unknown to us. Our votes for Trump and true Conservatives are crucial. Don't make a mistake. Our lives and their lives depend on your efforts!

Mr. Biden had the audacity to declare on national television that when he took office in January 2021 inflation under Trump had skyrocketed, but since then, his policies have paved the way for prosperity for all (just to sum this madness up)... What planet is he referring to? What reality is he alluding to? The truth of the matter is shown for all to see above. To the far left, one can see that under Trump, when Biden slipped into the White House, inflation was a low 1.4%... Since then, it's all Biden when it comes to high inflation, and this depressed economy. Show this to your liberal friends who believe things were worse under Trump and I believe...

# God Bless America

It's heartbreaking to watch students on American college campuses spew vile anti-Semitic hate. All Americans should condemn these demonic attacks on the Jewish people. Stand up against the atrocities of Hamas. Stand up for the right of Israel to defend herself.

You'll also notice this despicable hatred for the Jewish people is closely aligned with the radical, woke Left's hatred for America. That's why these anti-Semitic riots are generally coupled with chants of "Death To America"!

This is happening because college professors are "linking arms" with the media, Hollywood elite, radical unlawful activists, and woke politicians to do everything in their power to DESTROY this great country!

It is very clear that AMERICA IS UNDER ATTACK FROM WITHIN!

## Behind Massive Mail-in Ballot Push Is a Little-Noticed Executive Order

The federal government is using its vast resources and its largest agencies to register new voters and expand mail-in balloting, with the help of nonprofits.

A group of 24 Republican legislators in Pennsylvania have filed a federal complaint against President Joe Biden, Gov. Josh Shapiro, and representatives of the Pennsylvania Department of State, saying they have usurped the authority of the Legislature by changing voter registration and election rules.

Their complaint in U.S. District Court for the Middle District of Pennsylvania asks a judge to declare three actions unconstitutional: a voter registration executive order made by President Biden, a voter registration action by Mr. Shapiro, and some Department of State directives. They also request that the judge issue an order prohibiting the president, the governor, and state executives from making future changes to the elections process in Pennsylvania without following the legislative process.

"Federal campaign finance laws apply to private parties' voter registration activities," the court papers say. "Voter registration drives ... are a federally recognized private function, not a government function."

The above article excerpted for space is absolutely terrifying for those of us who want free and fair elections. The duplicity is astounding! Here are a couple of comments from their readers:

Byron T says: "Even communist countries do not allow mail-in voting and it is already Not Allowed by European countries due to voter fraud. There is NO reason for mail-in voting. Get off your butts and go vote and take your ID with you." CM K opines: "Dems will do anything to keep power."

If Biden wins in 2024 then you know for sure elections are rigged." CJ Gorman notes: "And don't forget the 10 million new dem voters imported over the last 3 years." — theepochtimes.com

## BIDEN BLOODBATH

Biden's disastrous border policies have aided and abetted an invasion of our county. He is allowing vicious criminals into the United States, and innocent Americans across the country are paying the price.

Lethal drugs, cartels, gangs, and terrorists are taking advantage of the crisis to enter the U.S. and threaten America. This is an invasion aided and abetted by Joe Biden, supported by Democrats who vote for his dangerous and cruel policies.

## Migrant squatter crew arrested in NYC are set free without bail

Criminality from foreign nations has continued to find a foothold in the United States thanks to the open border and leftist policies that place increased burdens on law-abiding citizens. Tuesday, this appeared to play out again as six of eight alleged alien squatters had been released without bail following their arrest in a gun and drug bust.

According to the district attorney's office, a request had been made to have bail set at \$150,000 or \$450,000 bond for Hector Desousa Villata, the 24-year-old Venezuelan charged alongside the others with criminal possession of a weapon, criminal possession of a controlled substance and acting in a manner injurious to a child as a seven-year-old had been found in the home. — bizpacreview.com

## Dem mayor says St. Louis business owners need to be 'held accountable' for crime on their premises

"In addition to the novel proposition that it's important to hold business owners rather than city government officials accountable for crimes on business property, other meeting attendees suggested that the problem isn't that crime is rising, but merely that people perceive that it's rising," according to the Blaze.

"We are solidified and resolved in the fact that we are stronger together," the outlet quotes Young as saying. "The national crime data may show some decreases in overall crime stats, but what we discussed today is that if people don't feel safe, then the statistics don't matter."

James Woods: "President Biden deciding to rewrite Title IX is one of the most radical and illegal moves we've ever seen from the federal government." More to come. This teleprompter puppet rolled over the Constitution with a Sherman tank. He's the worst and most dangerous "president" ever. We will not put boys in girls sports as a coach and as a parent. I've watched young girls work to learn the lessons that come along with playing sports. They have been able to show leadership. They have been able to dedicate so much of their life to learning those lessons that come from hard work, that come from teamwork, that come from competition.

And to see the federal government try to erase girl sports

is disgusting. We've already heard back from a lot of districts that are very pleased that we stood in front of them in this dictate from the federal government.

We're very proud of our districts that are holding the line, and we will never allow Joe Biden to control our schools and indoctrinate our kids.

Our young girls deserve these experiences, and they shouldn't have them ripped away by some activists in Washington, D.C., who want to use the power of the federal government to impose radical gender theory on our state. # **E**very Terrible, Evil Thing Happening In America is Courtesy of China and the CCP...Obama...and Satan. Here's How They're Doing It.

## **Everything happening today benefits China and the CCP...**

The open borders invasion, with our government welcoming in tens of millions of foreign criminals, terrorists and dangerous military-age males – and willing to bankrupt America to pay for them all. This is an army to destroy America from within. Who would want this?

Drugs flowing in over that open border that kill over 100,000 young Americans a year. Who would allow this?

Green Energy and ESG based on climate change fraud and propaganda. Result? American companies waste billions, and the greatest middle class in the world is destroyed, while China keeps building hundreds of new coal and gas plants annually, while using dirty fossil fuel to their heart's content.

Rigged elections – a hallmark of communism.

Lawfare & weaponization of government against anyone who disagrees with Deep State lies, fraud and propaganda.

DEI and CRT – the tools of the communist left to create division, jealousy, racism and hate between black and white America.

This sudden outbreak of Jew-hatred and threat of genocide to Israel and the Jewish people. Where did this come from? It's never been seen in the history of America. More division to break America apart.

This sudden obsession with rainbow flags, transgenders and converting America's children. Where did this come from? Suddenly nearly 40%

of Generation Z describes themselves as gay... including 70% of young women at some elite colleges. These are percentages never seen in the history of the world.

DEI destroying U.S. companies with unqualified employees.

DEI destroying the quality of U.S. universities – who now base admission on race, but don't consider test scores.

Our once-mighty military being decimated by DEI, CRT, transgender brainwashing, climate change fraud and deadly vaccines. And we've given all the weapons and ammo away to Ukraine.

"Defund the police" combined with communist-backed DAs who allow violent criminals to walk free with "no bail." The result? A mass crime wave; retail theft at historic levels; streets filled with homeless, drug needles, pee and poop; retail businesses closing by the thousands.

Reparations – to create more jealousy, division and bankruptcy.

Food shortages mixed with Supply Chain dysfunction – led by the least qualified human being in US history – Mayor Pete Butthead.

Historic levels of "excess deaths" since the day the Covid vaccine was introduced. What happens to our economy as those deaths multiply and there is no one left to fill jobs crucial to society? Who gains if our society collapses?

Everyone running for their lives from blue cities and states, driving property values dramatically down.

Who benefits most from this disaster? China.

ALL of this chaos, crisis and catastrophe has been created and coordinated by China and the CCP to weaken, disrupt, divide, demoralize and eventually destroy America, the US economy and capitalism.

This is all straight out of the communist playbook. When it gets bad enough, when it causes civil war, or the collapse of our economy, China and the CCP plan to be there to pick up the pieces. To conquer us and enslave us into a Godless communist society.

Or, at the very least, dominate America economically, militarily and on the world stage. And take over all our farmland and valuable real estate at cheap "bargain basement" prices.

How is all of this happening? Who would allow this? It's simple. China has bribed virtually all of our key politicians and key government bureaucrats. They're all getting filthy rich on America's downfall.

This also explains what's happening to President Trump. Trump is the only one standing in the way of China's plan to conquer America and dominate the world. Trump is the only one too wealthy to bribe. He's the only one not going along with the plan, so he must be demonized, destroyed, rot in prison, or assassinated.

Yes, this is all China and the CCP.

With an assist from Obama.

And Satan at the very top of the pyramid.

And if you don't clearly see this, you're either blind, deaf, really dumb, or you're part of the conspiracy. — **Wayne Allyn Root**

## **BIDEN'S EDUCATION SECRETARY VOWS TO SHUT DOWN THE LARGEST CHRISTIAN UNIVERSITY IN THE US**

After Department of Education Secretary Miguel Cardona vowed to shut down Grand Canyon University (GCU), the largest Christian university in the U.S., GCU officials are pushing back, telling Fox News Digital the crackdown stems from "deeply held bias."

Cardona made comments during a House Appropriations Committee hearing about cracking down on GCU and other universities like it on April 10.

Rep. Rosa DeLauro, D-Conn., asked Cardona how the administration is working to shut down GCU, which she

called "a predatory for-profit school."

Cardona openly embraced their enforcement methods, declaring "we are cracking down not only to shut them down, but to send a message to not prey on students."

It's more important than ever to support the values we hold dear in America: God, Family, Country. NFRA provides the nucleus of the Republican candidate's volunteer work brigade. I know from personal experience. It's hard to imagine my campaigns being anywhere near as successful as they were without the dedication of Republican Assembly members. I urge you to join today."

The Florida Republican Assembly is on a mission to unite Floridians across this great state and bring forward their wisdom and talents to make a difference at the local, state and national

levels. We are NOT the establishment!

# My generation doesn't know why the heck they're protesting for Palestine

Do the Gen Z pro-Palestine protesters even know what they're screaming, yelling, and encamping about? Definitely not.

A Columbia University student who rushed down to NYU's campus in solidarity with protesters there [said on camera that she actually had no idea what they were protesting, eventually admitting she needed to be "more educated" on the issue.](#)

I'm sure that's very much the case with her countless classmates donning keffiyehs and chanting anti-Israel slogans.

An unnamed Columbia University student interviewed when she rushed to NYU to join the protests there admitted she did not know what they were actually protesting.

Forget the three r's, these Ivy League elitists are schooled in the three i's: ignorance, indoctrination and Instagram.

International politics are complicated, and yet GenZers have appointed themselves as experts before even graduating from college or bothering to learn any of the details.

Diplomats, negotiators, and world leaders have failed to solve the decades-long conflict.

But don't worry — the Zoomers have everything figured out!

When I was at Columbia during this week's protests, I saw signs like "dykes 4 divest," "gays for Gaza," and "lesbians for liberation."

At Columbia signs include this "Dykes 4 Divest," despite the Hamas regime in Gaza persecuting gay, lesbian and transgender people. Rikki Schlott

These are Ivy League students [with they/he pronouns, and yet they are woefully unaware of the fact that merely being gay in Gaza can amount to ten years' prison time, according to Human Rights Watch.](#)

I have little doubt that the vast majority of students chanting "Intifada revolution" and "from the river to the sea" don't really understand what they're implying.

In fact when a Berkeley political science professor [polled students about the chant "from the river to the sea," he found that, while 86% of students said they supported the chant to some degree, just 4% of those supportive students were able to correctly name the river and the sea in question.](#)

The most popular incorrect rivers were the Nile and the Euphrates.

And the most common erroneous "seas" include the the Atlantic, which is an ocean, the Dead Sea, which is a lake, and the Caribbean.

At least it is a sea.

The leaders of the Columbia encampment include Khymani James , who uses they/he/she pronouns. In Gaza, being gay can lead to 10 years imprisonment. LP Media

And what are these students actually doing in the name of Palestine?

Well, at Columbia, they're pitching expensive North Face branded tents, pairing their designer clothes with keffiyehs, gorging themselves on peanut butter and jelly, and participating in silent interpretive dance.

Is this a fight for justice — or a desperate grasp for relevance and likes?

Palestine has an intifada.

We've got intifaddists.

As one Jewish Columbia student

described it to me, the encampment looks a whole lot like "Woodstock for antisemites."

And my generation's ignorance isn't just a laughing matter.

Some misguided Zoomers hold legitimately heinous views.

At Columbia, there is a peanut butter and jelly, not to mention allergy warnings, but a spectacular lack of knowledge about what is really happening in Israel and Gaza. NYPJ

When fellow Post reporter Jon Levine and I talked to masked NYU student protesters gathering on campus on Wednesday night, they both implied that Israel should not exist and justified the atrocities of October 7th.

One NYU undergraduate student, who told us his name was Dylan, confidently declared that, "The state of Israel has no right to exist."

He also justified the killing of 1,200 people in Israel on October 7 th.

"When you perpetrate a genocide for over 5 years and you refuse any other means of people resisting those extremely violent policies, people will take up arms to resist against their occupiers," he said.

This is a generation which offers silent interpretive dance, in this case with red string, as a serious answer to what it's protesting about. @OliLondonTV/X

My generation has been force-fed narratives about the oppressor-oppressed dichotomy by their far-left educators and their culture, and as a result are used to looking at the world through the lens of good and evil.

Today, radical professors tell students what to think — and have completely abdicated their responsibility to teach kids how to think.
